

HydroGuard® T/P

Series e707

Series e707

T/P Total Protection: Temperature and Pressure

- Affordably priced, comparable to common pressure balance valves
- Provides true protection against pressure and temperature changes
- Eliminates time and cost for seasonal limit stop adjustments
- Controls mixed outlet temperature within 5° F of hot water supply temperature for applications where low hot water temperatures exist
- 5-Year Limited Warranty on internal tempering mechanism
- Won't stick or seize due to harsh water conditions
- Back-to-back installation without costly cross-over piping
- Self-contained cartridge installs in minutes to simplify repairs
- ASSE 1016 Type T/P, and IAPMO cUPC Listed

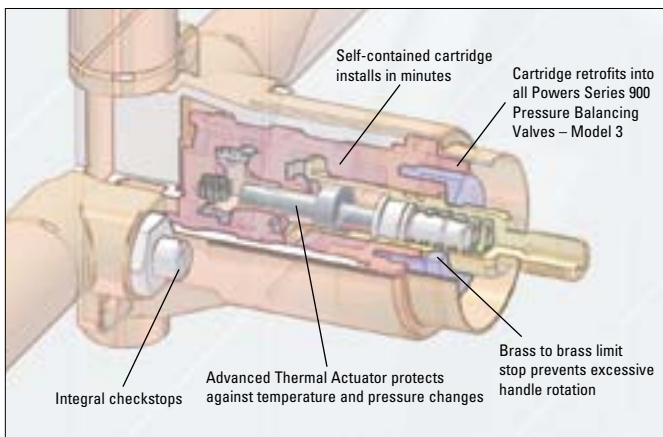

*Serving hotel, healthcare, education, commercial
and residential markets since 1891.*

POWERS™

Powers offers you complete shower systems...

- Deluxe or standard chrome-plated brass components
- Valve housing is 100% cast bronze
- Long-lasting, trouble-free valve design
- Maintains flow capacity of 4.0 gpm (15 lpm) at 45 psid (310 kpa)
- Compensates for 50%+ fluctuation in supply line pressures*
- Compensates for 25° F changes in water supply temperatures*

Advanced Thermal Actuation technology maintains a safe and constant output flow despite changes in input temperature or pressure – dramatically minimizing the risks of scalding and facility liability...
