05/13

Replaces: New

Job _____ Designer _____ Contact _____

The Snow Sensor 095 is an aerial mounted sensor that detects falling snow and allows a tekmar Snow Melt Control to automatically start the snow melting equipment. System stop is provided by the control's timer or by manual disable. The 095 mounts to a nominal 1/2" (16 mm) metal or PVC conduit or pole. The 095 is well suited for adding automatic start to an existing snow melt system.

Specifications

| Snow Sensor 095 Aerial Mounting | |
|---------------------------------|---|
| Literature | 095_C, 095_D |
| Packaged weight | 0.4 lbs (180 g) |
| Dimensions | 1-15/16" H x 3-5/32" O.D. (50 H x 80 O.D. mm) |
| Enclosure | White PVC plastic, UV stable, NEMA type 1 |
| Operating range | -40 to 122°F (-40 to 50°C) |
| Compatible equipment | tekmar Snow Melting Control 653, 654 |
| Warranty | Limited 3 Year (See 095_D for full warranty) |

Energy Saving Features

- Automatic snow detection

Additional Features

- UV Resistant
- Mounts to 1/2" Metal or PVC Conduit

SPECIAL REQUIREMENTS

This sensor must be used with a tekmar Snow Melting Control 653 or 654.
