# LEAD FREE\*

## AquaLock<sup>™</sup> Brass End Caps

## Lead Free\* Brass push-to-connect End Caps

Sizes: 1/2" - 1"

Watts AquaLock push-to-connect brass fittings are designed and manufactured for many years of trouble free service. Brass fittings are manufactured from Lead Free\* brass and incorporate the proven Watts AquaLock patented (7,354,079 B2) O-ring and Collet design which allows for quick and easy connections without the use of installation or disconnection tools. The Lead Free\* Brass push to connect End Stops features Lead Free\* construction to comply with Lead Free\* installation requirements. Watts Aqualock offers fittings that can be used on CVPC, PEX, Copper and now Schedule 40 PVC.

### **Specifications**

Connection shall be made using Watts Brass AquaLock fittings with Integral Collet and O-ring guide. Fitting shall be able to fully rotate under pressure and allow for easy disconnect and reuse without tools. Lead Free\* brass end stops shall comply with state codes and standards, where applicable, requiring reduced lead content.

### **Approvals**

ASSE 1061-2006, NSF/ANSI 14, NSF/ANSI 61, CSA B137.5, ASTM F877

#### Ratings

250psi @ 200°F (13.8 bar @ 93°C)

#### NOTICE

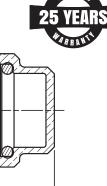

For compliance to ASSE 1061 a pipe insert (provided) must be used with each connection when joining PEX pipe.

A push ring clip is provided for each CTS connection and is intended to prevent accidental disconnection of fitting during pull-through installations while the system is unpressurized. To disconnect the fitting, manually remove the push ring clip and depress the push ring.
